

SHAVKATJON AHMEDOV

PHP BACKEND DEVELOPER

I am a junior Backend developer. I have recently completed programming courses and am currently looking for a job in this field. During the course, I learned a lot about web development. For example, in Frontend (HTML, CSS/Bootstrap, JavaScript/Vue JS) and Backend (PHP, Laravel, Symfony, MySQL/PostgreSQL, OOP, JSON, API). My current goal is to strengthen my knowledge and experience in the field of programming!
